**DETAILED ACTION**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, after the heading "CROSS REFERENCE TO RELATED APPLICATIONS," the following has been added:

This application is a continuation-in-part of application Serial No. 09/022,184, filed February 11, 1998, now abandoned, and a continuation-in-part of provisional application Serial No. 60/095,788, filed August 7, 1998. The contents of both of these applications are hereby incorporated herein by reference in their entireties.

2. The following is an examiner's statement of reasons for allowance:

The claims are drawn to a method of providing neuroprotection to a subject resulting from either brain or spinal cord trauma or stroke comprising administering a compound of the formula:

The prior art of Bowen et al. (US5679679) discloses compounds that are effective in

Art Unit: 1654

the treatment of CNS disorders. The reference further discloses compounds that have the structural attributes of the claimed compounds. However, the compounds corresponding to the compounds of the formula claimed are utilized by the prior art as intermediates to produce structurally distinct compounds, from those claimed in the instant application, which are used in the treatment of CNS disorders (see col. 13-14 as examples). The prior art does not teach nor suggest that these intermediates themselves are effective in the treatment of CNS disorders. Thus, the prior art does not teach nor suggest the claimed invention. Thus, the claimed invention is both novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
